

# PASPALLEY

## Pearl Care

Congratulations on your purchase of the most beautiful pearls in the world. Please consider the following advice when caring for your pearls:

- ~ Wait until after applying makeup, perfume and hair products to put on your jewellery. Some chemicals may harm pearls.
- ~ Wipe your pearl jewellery with the Paspaley pearl chamois provided before putting away.
- ~ Store your pearl jewellery wrapped in a soft cloth to protect it from rubbing against harder gems or abrasive objects.
- ~ Occasionally clean your pearls gently with a cloth dipped in alcohol diluted with warm water or in mild soapy water. Rinse the cloth in fresh water and wipe pearls clean. Dry with a soft cloth.
- ~ Strands will require restringing from time to time, depending on how often they are worn. It is advisable to seek guidance annually on restringing.
